

Executive Summary

At this time, The Security Centre and Solace Global advises against all travel to **China**, to Daegu, Cheongdo and Gyeongsan in **South Korea** and **Iran** due to travel restrictions, cancelled flights, forced quarantines, government warnings and the outbreak of COVID-19. Travellers should also reconsider their need to travel to **Italy** with only business-critical travel, with associated precautions, advised at this time. Additionally, we advise against all non-essential travel to **Hong Kong** and **Macau**. Travel restrictions are being implemented globally and with little or no notice. Businesses and travellers should check their relevant country's travel advice before any and all travel globally.

Latest Updates

The government of the Czech Republic has declared a 30-day state of emergency and implemented new travel restrictions to and from multiple countries due to the ongoing COVID-19 virus. The new restrictions have banned individuals from entering the country from 15 countries (Germany, Austria, Italy, Sweden, Norway, France, Netherlands, Belgium, Spain, Denmark, Switzerland, China, South Korea, Iran and the United Kingdom). Czech nationals are also banned from flying to those countries. The ban will not bar permanent and temporary residents from the 15 countries from returning. There are currently 113 confirmed cases in the country. Numerous other countries, including the US, Vietnam and Norway.?

Sporting events are also being greatly impacted by the outbreak. The Australian F1 Grand Prix, the Champions League, Europa League, NHL, NBA, international cricket matches, the Indian Premier League, all English football league matches, including Premier League, and other European domestic leagues matches, have been cancelled. The news that English Premier League matches will be suspended comes after the Arsenal FC manager and a Chelsea football player contracted the virus. Japan's Olympic minister has insisted that the Games will go ahead, with Tokyo's governor saying that cancelling them would be unthinkable.

Elsewhere, Gabon and Ghana have announced their first cases of the virus, becoming the ninth and tenth countries in Sub-Saharan Africa to confirm cases. In Gabon, the patient is a Gabonese national who recently returned from travel to France. Health officials in Ghana confirmed that the two patients returned to Ghana after travelling to Norway and Turkey. There are unconfirmed reports that one of the victims is a senior official at the Norwegian embassy.

Across the Atlantic, Trinidad and Tobago also announced its first case. An individual who recently returned from Switzerland had undergone a period of self-isolation before contacting emergency services after discovering several symptoms of the virus.

The governor of Alaska, Mike Dunleavy reported that one person has tested positive for the COVID-19 virus, the first confirmed case in the state. The patient is a foreign national who underwent self-isolation for a brief period of time before alerting emergency services to their symptoms. Elsewhere in the US, the Governor of Virginia, Ralph Northam, has declared a state of emergency after the number of confirmed cases across the state increased to 17. All conferences and large events have been cancelled, while schools are set to be shut. Public-sector employees will be also be prevented from travelling to other states.

Norwegian Prime Minister Erna Solberg confirmed that one individual had died as a result of the virus, the first confirmed fatality in Norway. Solberg also announced several new measures designed to prevent the spread of the virus will be implemented. These measures include the closure of all educational institutions and sending foreign nationals arriving in country without symptoms back to the country they departed from. Travellers with symptoms will be placed into isolation.

Asia China South Korea South Korea South Korea China and South Korea, case numbers are growing slower in Asia that greatly impacted the country. Outside of China and South Korea, case numbers are growing slower in Asia than in Europe. Japan now has more than 500 cases, no including those on the Diamond Princess that was quarantined in the port of Yokohama. Vietnam has suspended visas on arrival. Current Restrictions: Daegu, Cheongdo and Gyeongsan Despite the high case numbers, the outbreak in South Korea remains largely isolated to the cities of Daegu, Cheongdo and Gyeongsan. Indeed, of the 7,000+ cases in the country, 75 percent are reportedly in Daegu. The death rate in the country is lower that 1 percent, demonstrating the effecting measures that Korea has learnt from the MERS outbreak that greatly impacted the country. Outside of China and South Korea, case numbers are growing slower in Asia than in Europe. Japan now has more than 500 cases, no including those on the Diamond Princess that was quarantined in the port of Yokohama. Vietnam has suspended visas on arrival. Current Restrictions: The entire country is now being placed on lockdown. Though travel within and out of the country does remain possible. Travellers and businesses should, therefore, reconsider their need to travel to Italy, with only business-critical travel being advised at this time as long as adequate precautions are made. Anyone returning from Italy will be expected to self-isolate for 14 days upon returning to their home country. Outside of China, Italy has the most reported COVID-19 related deaths. The country also has the highest reported.

TSCL and Solace Global Advice		Advise against all travel: Mainland China; Daegu, Cheongdo and Gyeongsan (South Korea); Iran									
		Reconsidered travel, only business critical: Italy									
		Advise against all but essential travel: Hong Kong and Macau									
		Mor	Monitor closely for updates: Bahrain, France, Germany, Norway and Spain								

- TSCL and Solace Global advises clients and travellers to monitor countries experiencing outbreaks due to currently in place travel restrictions.
- Regularly check updates via your respective government agency and the World Health Organisation for travel information and potential restrictions.
- Ensure your healthcare and insurance providers are aware of any essential travel to impacted locations.
- Continue to monitor the situation closely, as new travel restrictions and further outbreaks may occur with no warning.
- Do not travel if ill, as you may be subject to additional screening, delays and even quarantine, regardless of destination or country of origin.
- Additionally, those with a pre-existing medical condition (such as a cardiovascular disease, cancer, diabetes, respiratory disease, diabetes or hypertensions), or those over the age of 70, should consider refraining from travelling.
- · Maintain a good hygiene level, use hand sanitizer and wash hands regularly if travelling in the coming days.
- Additionally, monitor for symptoms, should you suspect that you have contracted the virus, self-quarantine and immediately call your relevant embassy and/or consult your doctor.
